JEREMY BLAIN

AUTHOR OF "UNLEASH THE INNER CEO

Make distributed leadership a reality"

A new age of empowerment is dawning. As organizations look to rebuild for the future, a more collaborative approach to organisational growth is necessary in the era business transformation and modernization. Distributed Leadership can become a reality for organizations if they create the conditions where everyone can contribute autonomously, operationally and strategically across the business. How this can be achieved has typically been neglected, but this is an anomaly Jeremy Blain has corrected with the launch of 'Unleash the Inner CEO'

Unleash the Inner CEO arms executives with a blueprint to create leaders at all levels within their organization as in-role CEOs
